

The Borough of Lewisburg regulates construction and development in floodplain areas. The intent of these regulations is to:

- (1) Promote the general health, welfare and safety of the community;
- (2) Encourage the utilization of appropriate construction practices in order to prevent or minimize flood damage in the future;
- (3) Minimize danger to public health and safety by protecting water supply, sanitary sewage facilities and natural drainage;
- (4) Reduce financial burdens imposed on the community, its governmental units and its residents by preventing the unwise design and construction of development in areas subject to flooding; and
- (5) Comply with Federal and State floodplain management requirements and maintain affordable flood insurance premiums for all property owners under the National Flood Insurance Program.

Contact the Borough's Zoning Officer to determine if these regulations apply to you when expanding or rehabilitating your home or business. Go to [/Codes/](#).
