

LEWISBURG BOROUGH FLOOD MITIGATION STUDY FINAL PUBLIC MEETING

Lewisburg Borough has developed a Flood Mitigation Study to increase the resiliency of the Borough during flooding events and we want to share the highlights with the community!

Please join us on June 8th at our final public meeting! The meeting will cover topics including a final summary and recommendations of the flood mitigation study. The study also included the development of a toolbox that highlights what it means to be a flood resilient community and what you can do before, during, and after a flooding emergency.

The Borough wants to remind the community about how everyone is impacted by flooding events and how they can help mitigate the impacts to become a more resilient Lewisburg.
