

LEWISBURG BOROUGH FLOOD MITIGATION STUDY TOWN HALL MEETING

Lewisburg Borough is in the process of developing a Flood Mitigation Study to increase the resiliency of the Borough during flooding events and we want you to participate!

Please join us on January 25th at our town hall meeting to engage with the flood mitigation study team. The meeting will cover topics including an update on the flood mitigation study, what it means to be a flood resilient community, what you can do before, during and after a flooding emergency.

The Borough wants to inform the community about how everyone is impacted by flooding events and how they can help mitigate the impacts to become a more resilient Lewisburg, through informational presentations and boards, and interactive activities!

MEETING INFORMATION

Date: Wednesday, January 25, 2023

Time: 6:30 PM

Location:

Lewisburg Hotel - Ballroom
