Borough of Lewisburg to test new emergency siren system

Lewisburg, PA – On Thursday, May 11th, 2023, The Borough of Lewisburg will be testing the new emergency siren system. Four sirens have been located within the borough boundaries allowing for the notification to be heard by all borough residents. The test will consist of a voice notification stating, "this is a test of the Lewisburg Emergency Notification System, this is only a test." The voice recording will follow with a blare of the siren, and then the voice notification again. The duration of the test notification will be about 15-20 seconds total and will take place at approximately 2:00pm.

The purchase and installation of this equipment was funded by a Community Development Block Grant thru the Department of Community and Economic Development.

If you have any questions related to this test you can call the borough office at 570-523-3614 x314 or visit the Borough office at 55 South Fifth Street, Lewisburg Monday thru Friday from 8:00am to 4:30pm.
